THE CEMENT EVOLUTION

HERACLEX[®], innovative, ductile as well as resistant puts a new spin on cement concept and applications

THE USE OF HERACLEX[®] ALLOWS TO

- Avail of a new material with outstanding properties
- Expand and renew the range of products
- Adapt to the market trends
- Produce cheaper
- Produce higher quality and durable manufactures
- Use non-toxic and eco-friendly materials

Ultra High Performance cement-based materials can be obtained by using HERACLEX[®], spearhead of the technology developed by INNOVAcete, thanks to the extraordinary synergy developed among its components (patent-protected)
